

NEW GIS STORY MAP

Ashley Cone, a recent environmental science and policy graduate, created an engaging story map during her summer internship with OAS.

She stumbled upon the innovative USF reverse vending machines and was captivated by their potential to promote recycling among students.

Under the guidance of Daniel Gessman and Suchi Daniels, she created an interactive GIS-based story map that explains what these machines are, pinpoints their locations on campus, and highlights the benefits of using them. This creation, which resembles a website, served as her introduction to the world of GIS. You can explore the story map using this link: arcg.is/zPPzi or scanning the QR code.

Ashley Cone, OAS Summer Intern.

Inspired by her internship experience, Ashley now aspires to be a GIS analyst or a sustainability analyst, using data to guide companies towards sustainable decision-making. Her summer takeaway? "Surround yourself with the right people and connections, and making sustainable choices becomes effortless."

OCTOBER TOWN HALL

Don't miss the OAS Town Hall on Monday, **October 2!** Sessions will be held at 10 am and 2 pm in the MSC Oval Theater, and at 6:30 pm in the PTB Training Room.

USF FOOTBALL FACULTY/STAFF APPRECIATION GAME

The USF Faculty/Staff appreciation game is coming up on 9/23, when USF football faces off against Rice University.

USF employees will be able to claim two free tickets to the game, but also have the ability to purchase up to 8 more tickets at a discounted rate at tinyurl.com/facultyandstaff2023 for anyone else you may want to bring to the game.

EMPLOYEE PROFILE

ROBERT JORDAN
CUSTOMER SERVICE SUPERVISOR
PARKING & TRANSPORTATION SERVICES

Robert has worked at Parking and Transportation Services for over 20 years as a Customer Service Supervisor.

His typical day at work includes supporting customer service associates, employee training, and coordinating with campus departments on various projects and safety matters. Robert also manages the PATS general email account.

Robert's advice for new employees is to be friendly and helpful. Welcoming new students and offering guidance can significantly impact their experience on campus.

His favorite part about working in OAS is the opportunity to help

students. Robert initially came from a teaching background and has found that his role here still revolves around assisting people in their educational journey.

Outside of work, Robert enjoys outdoor activities like hiking and kayaking. Lately, he has been heavily involved in helping his wife and her sister with their bookstore venture, "*Bookends: Literature & Libations.*"

Robert's favorite book is "*A Confederacy of Dunces*" for its humor, and a recent favorite is "*The Authenticity Project.*"

When eating out, Robert and his wife enjoy going to his sister-in-law's house. She's an incredible cook, and they are fortunate to enjoy her delicious meals every night since she lives right across the street.
