"PARK PLATE OUT" POLICY HAS TAKEN EFFECT

08/12/2021

Coinciding with the recent introduction of virtual parking permits, Parking and Transportation Services (Tampa campus) has instituted the "Park Plate Out" policy effective today. As indicated on signage at the entrance to all parking lots, back-in parking is now prohibited unless parking in a disabled parking space, have an official state-issued front license plate or if you are actively charging in an electric vehicle charging space.

While we encourage the USF community to begin parking "plate out," we also offer a front-facing vanity plate for those who would prefer to continue backing into parking spots on the Tampa campus. These vanity plates can be purchased for a one-time \$50 fee at the Parking and Transportation Services main office located in the PTA building.
