

# USF Proteomics Core Facility Service Requisition Form

Interdisciplinary Research Building (IDRB), 3720 Spectrum Blvd, Suite 309/311, Tampa FL, 33613

Customer Information	
PI/Company Name	
Contact Phone Number	
E-mail	
User name & e-mail	
Date samples received	

Sample Information	
Sample Description	
Total # of Samples	
Additional Comments	

Service	Gradient/Instrument Time	Assisted*	Unassisted**
Proteome Characterization from Complex Sample with FASP Digest	3 hour	\$90.00	\$70.00
	2 hour	\$85.00	\$65.00
	1 hour	\$80.00	\$60.00
Proteome Characterization from Complex Sample with In-Gel Digest + Fractionation	1 hour	\$100.00	\$80.00
Purified Protein or Immunoprecipitation Analysis with FASP Digest	1 hour	\$85.00	\$65.00
Purified Protein or Immunoprecipitation Analysis with In-Gel Digest	1 hour	\$89.00	\$70.00
Post Translational Modification Analysis from Complex Sample		\$89.00	
Post Translational Modification Analysis from Purified/Low Complexity Sample		\$70.00	
Protein Assay (660nm)		\$9.00	
Protein Assay (660nm+IDCR)		\$12.00	

\*Samples are processed by personnel in the proteomics core.

\*\*Samples are processed by the customer (training typically required, can be provided).

-Quantitative Proteomics approaches include SILAC, SIDL, iTRAQ, LFQ (label free)

-Post translational modifications including phosphorylation, citrullination
