

What will I be studying?

Biomedical Anthropology is the study of people, health, and healthcare. This major is perfect for students planning careers in health-related professions.

You will learn how biology and society impact health and medicine. You will gain skills in cross-cultural communication, and learn how culture, race, ethnicity, class, gender, and inequality shape communities locally and globally.

Career Ideas!

- Doctor/Dentist
- Public Health Professional
- Forensic Scientist
- Nurse/Nurse Practitioner
- Healthcare Professional
- Anthropologist
