V.

Adjournment

Chair Griffin

USF Board of Trustees Finance Committee NOTES November 10, 2020 Microsoft Teams Virtual Meeting

I. Call to Order and Comments

The meeting of the Finance Committee was called to order by Chair Michael Griffin at 1:18 pm. Chair Griffin asked Dr. Cindy Visot to call roll. Dr. Visot called roll with the following committee members present: Michael Griffin, Mike Carrere, Les Muma, John Ramil, Charlie Tokarz, Jordan Zimmerman and Chip Newton. A quorum was established.

II. Public Comments Subject to USF Procedure

The Committee received three requests for public comment. Mr. Matt O'Brien, Ms. Sarah Townsend, and Ms. Amber MacDonald each spoke in regards to the recent publicity surrounding the College of Education budget cuts. The individuals are either current students and/or graduates of the College of Education. Each described the impact the College has had on them and the impact the College has enabled them to have on students and their families in the area. Each asked the Board to reconsider any cuts to the undergraduate program.

III. New Business – Action Items

a. Approval of August 25, 2020 Meeting Notes

Upon request and receiving no changes to the draft meeting notes, Chair Griffin requested a motion for approval, it was seconded and the August 25th meeting notes were unanimously approved as submitted by all committee members present.

b. 2021-22 USF Parking System Budget

Fell Stubbs, University Treasurer, presented the 2021-22 USF Parking System Operating Budget and requested approval at this time to meet a February filing requirement by the Board of Governors (BOG). BOG regulation 9.008 requires universities with outstanding auxiliary revenue bonds, issued by the Florida Division of Bond Finance, to annually submit a detailed operating budget to the BOG at least ninety (90) days before the beginning of the fiscal year. The USF Parking Facilities Revenue Bonds, Series 2016A, are the only USF bonds subject to this requirement. BOG Regulation 9.008 also states that the operating budget for University Auxiliary Facilities must be approved by the BOT before submitting to the BOG. The Operating Budget for the USF Parking Facilities Revenue Bonds is due to the BOG in February 2021 for the fiscal period 2021-2022.

The FY 2021-2022 Operating Budget for the USF Parking Facilities Revenue Bonds reflects

lower revenue in FY 2020-2021, primarily due to reduced permit sales partially offset by reduced expenses, followed by positive operations in FY 2021-2022. The unrestricted funds of \$14M provide support for AA credit ratings. Two voluntary disclosures were recently provided to bondholders and rating agencies describing current operating conditions.

Actuals for FY 2019-20 were presented, along with an estimated operating budget for FY2020-21 and a projected operating budget for FY 2021-22. There was a \$1.4M negative impact to revenue in FY 2019-20 due to the transition to distance learning in March 2020 and resulting waived transportation access fees and decreased permit sales.

Debt service is \$2.9M annually. The USF Parking System is a very strong, high credit rated system. The debt service coverage ratio was 2.31x coverage in FY 2018-19; dropped to 1.90x coverage in FY 2019-20; 0.77x coverage in FY 2020-21; and will recover to 1.43x coverage in FY 2021-22.

Chair Zimmerman asked for additional information on expense areas that have been cut this year in Parking & Transportation Services. Raymond Mensah, Director of Parking & Transportation Services, described the expenditure reductions which were implemented without jeopardizing student safety. These include reduced Bull Runner service, deferred non-essential expenses, deferred capital projects (fueling stations, new buses), freeze on vacant positions, and deferred planned major projects (on the 10 year plan) for the next two years. Expenditures were originally budgeted at \$14.5M for FY 2020-21. They have been reduced to \$12.3M; approximately a 14% reduction.

Chair Griffin asked if there have been any discussions with Student Government to get support from the Safe Team in getting students to cars, residence halls, etc. Mr. Mensah explained that the Safe Team is restricted to campus and the Bull Runner has some off-campus routes. He also explained that social distancing protocols are difficult on golf carts, which are the method of transportation for the Safe Team. However, they are looking at ways that the Safe Team can supplement the Bull Runner.

A motion was made to approve the 2021-22 Operating Budget for USF Parking Facilities Revenue Bonds, Series 2016A. The motion was seconded and approved by all committee members present.

c. Expenditure Authorization Requests

Nick Trivunovich, Vice President for Business & Finance and CFO, presented three expenditure authorization requests for approval by the Finance Committee.

o Southeast Chiller Plant (SEC) CH-4 Addition

This request in the amount of \$4,268,550 is to add a 2,300 ton chiller, cooling tower, system pump and condenser pump with required power support in the Southeast Chiller Plant (SEC). This addition will provide capacity to support new buildings in the southeast quadrant (Wellness Center, Football Training Complex and Honors College) while creating much needed redundancy. Failure to increase the cooling capacity of SEC would reduce the ability to support these and other buildings serviced by the plant. Most importantly, should one of the existing chillers fail or need to be taken offline, this provides the N+1 capacity to continue to serve buildings in the southeast quadrant of campus. The project was originally on the capital projects list for \$4.75M.

The chiller will be funded with carryforward funds. Major equipment and construction will be procured using competitive bidding processes.

A motion was made to approve the expenditure request as presented. The motion was seconded and approved by all Committee members present.

o FM and Health Contracted Labor for General and Enhanced Cleaning

This request in the amount of \$3,834,791 is for the hiring of an outside custodial firm (City-Wide) to mitigate challenges in recruiting and retaining staff in the FM Building Services department and Health departments to include Downtown for general cleaning as well as meet the requirement for additional disinfecting of high touch point surfaces related to COVID-19. This contract is a pricing structure and the estimated annual spend is \$3.8M.

Trustee Carrere asked if there were security concerns/issues for these buildings. Rich Sobieray responded that USF Health has been using this firm for some Health buildings and there have been no issues. Chair Griffin asked if we have KPIs (key performance indicators) in place to be sure we are getting the proper services. Chris Duffy responded, yes, KPIs are in place as well as quality inspections.

A motion was made to approve the expenditure request as presented. The motion was seconded and approved by all Committee members present.

Schindler Elevator Maintenance Contract Renewal

This request is for a one-year extension of Schindler Elevator Service. The original contract was for 5 years and expenses amounted to \$2.7M. The original contract was executed prior to our current expenditure authorization process so it never came to the Finance Committee. A one year extension to the original contract in the amount of \$605,506 is being requested. Even though the original contract was never brought to the Finance Committee, this expenditure authorization is being presented in order to provide full disclosure to the Committee. The contract services about 113 elevators (102 are in E&G funded buildings and 11 are in auxiliary buildings).

Chair Griffin requested that we look at contract renewal well in advance of the end date so we are not in a bad position to negotiate.

A motion was made to approve the expenditure request as presented. The motion was seconded and approved by all Committee members present.

d. 2020/2021 Fixed Capital Outlay Budget Update

Mr. Trivunovich presented an update to the 2020/2021 Fixed Capital Outlay Budget. The BOT approved the 2020/2021 Fixed Capital Outlay Budget on September 8, 2020. Since that date, there have been additional recommended changes to the plan. These recommended changes are as follows:

1) A change in the cost of the Southeast Chiller Plant – Chiller and Cooling Tower #4 from \$4.75M to \$4.27M with the entire amount of the project being initially funded

- through E&G Carryforward. The related change would also be made to the 2020/2021 E&G Carryforward Budget.
- The addition of a \$1.25M project for the St. Petersburg campus related to renovations for the Nelson Poynter Memorial Library. This will be entirely funded through donated funds.
- 3) The addition of an \$800K project for the St. Petersburg campus related to a Harbor Hall renovation to support the Graphic Arts program. This project will also be entirely funded through donated funds.

A motion was made to approve changes to the 2020/2021 Fixed Capital Outlay Budget and to approve related changes to the 2020/2021 E&G Carryforward Budget. The motion was seconded and approved by all Committee members present.

IV. New Business – Information Items

a. Draft 2020 Financial Statements

Jennifer Condon, University Controller, provided highlights of the FY 2020 financial statements. There are three themes for the FY 2020 financial statements:

- 1) COVID-19
- 2) Morsani COM and HHI Completion
- 3) GASB Accounting for Pension & Other Post Employment Benefits (OPEB)
 - Actuarially estimated liabilities of promises to retirees which are out of USF control and significantly impacted by annual investment returns, covered payroll proportions, and various other actuarial assumptions.
 - Even though the State of Florida pays the contributions, USF must record the liability and cannot record the offsetting receivable.
 - o This is an issue for every public higher education institution.

OPEB and GASB continue to impact net operating results and net position. \$58M year over year variance (from FY19 to FY20) in net operating results, primarily caused by a \$37M reduction in net investment income; a \$26M increase in "non post-employment" compensation/benefits; a \$23M reduction in auxiliary sales/services; and offset by a \$26M reduction in service & supplies expense. Unrestricted net position has also decreased due to liabilities that are not our responsibility – this is happening to all state universities in the country.

Ms. Condon explained variances between 2019 and 2020 in excess of \$10M and 10% as well as variances in excess of \$20M, highlighting the following:

- 7 accounts fit the criteria on the balance sheet. 2 variances due to CARES Award, Summer "B" payment due date, and COVID-19 impact on UMSA. The remaining variances significantly attributable to Morsani COM & HHI.
- 4 accounts fit the criteria on the income statement. These variances are largely due to offsetting revenue/expenditure impacts from COVID-19 (auxiliary activities - dining, housing, parking, Study Abroad, bookstore, Arts; student support; CARES financial aid).
- o Compensation & Employee Benefits increased \$66M due to non-cash accruals, salary increases, and increases in health care costs.

- O Net Investment Income decreased \$37M due to unrealized gains and losses. A graph of Net Investment Income was provided which showed investment income and unrealized gains/losses separately. Investment income was flat from year to year while unrealized gains and losses decreased \$37M.
- Accumulated Total Cash & Investments decreased \$94.5M in FY20, largely due to timing (\$50M); Morsani/TGH payment (\$20M); and unrealized investments (\$14M).

Days cash on hand is 188, which is favorable to our Moody's median which is in the 150s.

Chair Zimmerman thanked Ms. Condon for an excellent presentation. He asked how this information ties into strategic realignment/renewal and are we seeing any savings now. Mr. Trivunovich explained that strategic realignment/renewal gives us a roadmap for how we want to use our resources.

Trustee Ramil asked if we have an estimate of total cash and investments for FY21 and FY22. Mr. Trivunovich explained that the final plan is due to the BOT in January and what it will do to cash and investments as we implement our plan.

Trustee Ramil commented that Consolidation was well done due to guiding principles provided by the Board. The Board has not done this for the strategic renewal process and it would be a good idea. Chair Zimmerman agreed. President Currall stated that we would welcome a dialogue on this and would be eager to review guiding principles for this process.

b. Strategic Realignment Update

Mr. Lechner and Mr. Trivunovich gave an update on the University's Strategic Realignment process and activities to date. The goal is to have a balanced budget by June 30, 2022. The total planning target is \$93.7M, consisting of an 8.5% reduction in State support of \$36.8M (FY2021) and costs without recurring sources of funding of \$56.9M (FY2022). The timeline and engagement efforts were reviewed. Actions to date include travel freeze/restrictions, hiring pause, executive pay cuts, retirement incentive program, and other cost savings/expense reductions. These actions have generated \$3.8M in cash to date. Information was also presented on: support unit cuts to date; progress against recurring costs; COVID related costs; and other efforts and considerations including liquidity vs carry forwards, efforts with Foundation and auxiliary efforts (housing has reduced spending by \$12M). Up next, Deans and Colleges complete their plans to meet planning targets and results will be presented at the January BOT meeting.

Chair Griffin asked Mark Walsh to give an update on the State's financial forecast. Mr. Walsh explained that in comparing September 2020 vs 2019, projections indicate that State revenue collections in FY 2020/2021 will be down by 7%. Not expecting much improvement in the short run, but looking better in the long run.

Chair Zimmerman asked for an update on housing and dining hall losses in Tampa and St. Petersburg. Mr. Trivunovich reported a \$4M loss for Tampa housing and a \$1.5–2M loss for St. Petersburg. Still working with dining providers on share of risks; no firms numbers yet.

Trustee Boaz would like to see more clarification on academic cut numbers. Chair Griffin wants to better understand the path forward and how the board can be more engaged. Chair Zimmerman stressed transparency in this process.

c. Annual DSO Investment Reports

As the allotted time for the meeting had ended, the Annual DSO Investment Reports were deferred to a later meeting.

V. Adjournment

Having no further business, Chair Griffin adjourned the Finance Committee meeting at 3:19pm.

Agenda Item: IIIb

USF Board of Trustees

Finance Committee February 23, 2021

Issue: Expenditure Authorization Requests

Proposed action:

1) Approval of the following expenditures:

- a) Lee Roy Selmon Athletics Center Enhancements \$3,000,000
- b) Innovative Education Renovation at TVB Building \$1,875,755
- c) Microsoft Campus Agreement Years 2 & 3 \$3,579,599

Executive Summary: The USF Policy for Delegations of General Authority and Signatory Authority requires the approval of the Finance Committee Chair for the procurement of goods and services above \$1 million and the approval of the Finance Committee for the procurement of goods and services above \$2 million. Approval is being requested for the items listed above.

The Lee Roy Selmon Athletics Center Enhancements and the Innovative Education Renovation at TVB Building were expenditure authorizations that were presented as part of the Facilities Update in the 2/23/21 USF Board of Trustees Academic and Campus Environment Committee meeting.

Financial Impact: Authorization is being requested for \$8,455,354 in transactions.

Strategic Goal(s) Item Supports: Goal 4: Sound Financial Management

BOT Committee Review Date: February 23, 2021

Supporting Documentation Online (please circle): Yes No

FACILITIES UPDATE

Master Plan Changes and Related Expenditure Authorizations

February 23, 2021

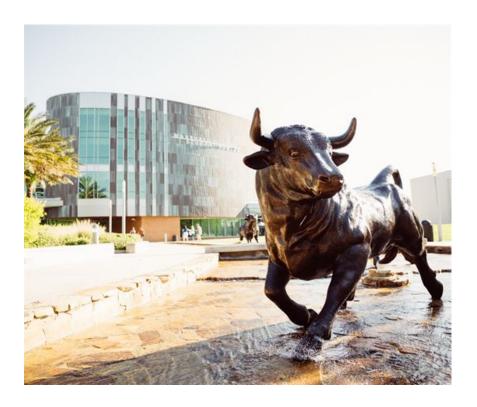

Objectives

- Apprise the Board of Trustees of Master Plan changes/amendments:
 - Tampa: location for Indoor Performance Facility
 - Tampa: location for the Student Wellness Center
 - St. Petersburg: location of Environmental & Oceanographic Sciences Research & Teaching Facility
 - Sarasota-Manatee: informational update on potential land acquisition
- Review expenditure authorizations and funding updates:
 - Indoor Performance Facility
 - Lee Roy Selmon Athletics Center Enhancements
 - Innovative Education renovation at TVB building
- Approval of master plan amendments (ACE committee)
- Approval of expenditure authorizations (Finance committee)

Master Plan Informational Review

Master Plan Overview

- Campus Master Plan Governance
- Current USF Campus Master Plans
- Updates to Master Plan
 - **USF Tampa campus** (Amendment #2)
 - USF St. Petersburg campus (Amendment #2)
 - USF Sarasota campus (Informational only)
- Process and Milestones

Environmental & Oceanographic Sciences Research & Teaching Facility St. Petersburg campus

Aerial View
College of Marine
Science Complex

Scope

This project is presented in two phases. <u>PHASE 1</u>: Demolition of 12,288 gross square feet (gsf) of the Northwest wing of Marine Science Lab building (MSL) and replace with a 4 story 45,200 net assignable square feet (nasf) (67,800 gsf) addition correlating to the STEM building nsf, gsf amounts. <u>PHASE 2</u>: Almost 41,000 nasf of remodeled space that will update existing MSL mechanical, electrical, and plumbing systems including the roof. The project will accommodate the following "constellation" of academic programs projected for the St. Petersburg campus:

- College of Marine Science (or the proposed College of Environmental and Oceanographic Sciences)
- College of Arts and Sciences (Environmental Chemistry, Marine Biology)
- College of Engineering (Coastal Engineering)
- Interdisciplinary Center of Excellence in Environmental and Oceanographic Sciences

Together, PHASE 1 and PHASE 2 will provide for 86,077 (nasf) with the following breakdown:

PHASE 1

New Addition 45,200 (nasf)

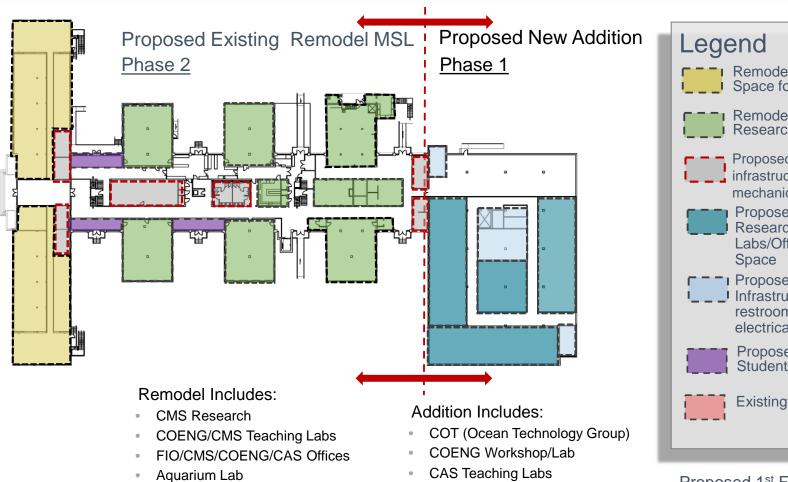

- 20,600 teaching laboratories
- 5,000 study space
- 15,600 research laboratories
- 2,000 office space
- 2,000 auditorium/exhibition space

PHASE 2

Remodeled MSL 40,877 (nasf)

- 948 teaching laboratories
- 2,218 study space
- 28,484 research laboratories (19,561 remodeled, 8,923 recently remodeled)
- 16,650 office space
- 1,500 campus support space

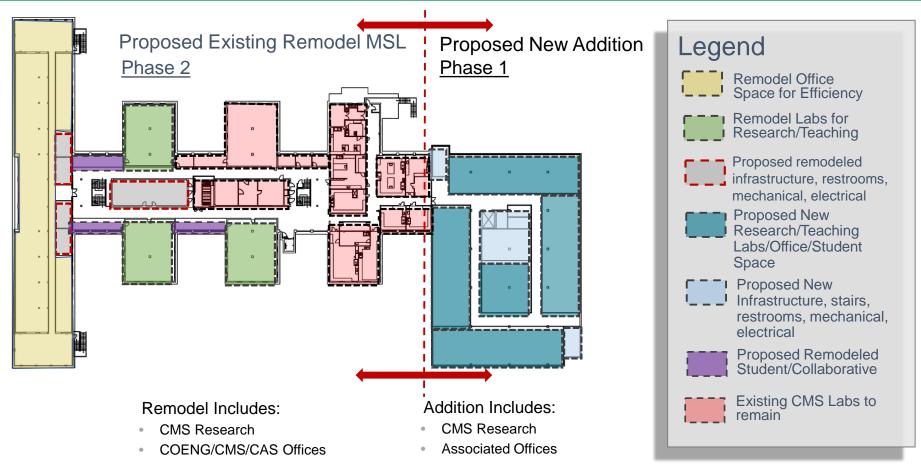

28

^{*}Students are part of the 'core' licensing and negotiated as static cost and priced using full time equivalent vs. headcount. All other licenses (employees and affiliates) are calculated using head count.

The Student component of the agreement has 0% cost increase year over year. FY22 Represents the last 'step up' of A5, increasing the unit cost, however the net total is reduced due to removing courtesy faculty and emeritus faculty headcouont from the A5 licensing. MS has granted USF the use of A1 licensing for affiliates (significant upgrade from Email Only licenses previously). As a result USF needs to purchase far less premium (A5) licenses. FY23 represents a 5% estimate in crease of unit cost from the year prior. FY23's unit increase is offset by the removal of faculty practice employees, who are not also USF faculty.

Description: (description and rationale for the project/initiative)

This renewal covers the Office 365 products, including Word, Outlook, Excel, Teams, and Teams phones. This also includes Windows and other features including the use of Power Business Intelligence for the University. There is also a server component which allows us to use Windows Server, SQL, Cloud Security Software and Advanced Threat Protection (ATP).

Objective: (strategic priority or needs the project/initiative addresses; include strategic goal this project/initiative supports)

Student Success (strategic plan goal 1), Process Efficiencies and Improved Security (strategic plan goal 4) are all objectives of this upgraded agreement with Microsoft.

Funding Source(s):

^{**}The USF Faculty Practice Plan (UMSA) employees, who are not also faculty, will acquire email services through the joint affiliation / TGH ahead of FY23.

| | FY 2021 | FY 2022 | FY 2023 |
|---------------|----------------|----------------|----------------|
| IT | \$1,112,342.41 | \$1,101,007.59 | \$1,066,081.60 |

| Practice Plan | \$113,365.59 | \$112,210.39 | \$0 |
| Tech Fee | \$273,400.31 | \$270,614.36 | \$262,029.97 |
| | \$1,837,367.70 | \$1,818,644.86 | \$1,760,954.09 |

Are the funds supporting the project budgeted or non-budgeted?

These costs are <u>budgeted</u> in the respective areas. Within the Information Technologies budget we maintain an annual reserve for license escalations (based on our history of the past few years) which will be used to fund the majority of the increase.

Prior Approval Process:

This is a 3-year agreement for software paid annually that was previously approved by the Finance Committee. In regard to this particular request, the Finance Committee Chair and the Board Chair have already approved year 1 with the understanding that we would cancel years 2 and 3 if the Finance Committee did not agree on moving forward with the entire three year contract.

Microsoft 2017 Pricing Agreement Discounts

By negotiating a long-term pricing agreement we did not commit USF to any future spend but locked in pricing that has realized the following savings:

Current cost for 20/21 agreement using 2017 Pricing Agreement is \$1.83M Price for same license levels without agreement would cost USF \$2.33M

- Areas with large discounts:
 - Server Platform Savings of \$231K per year
 - Student Licenses Savings of \$148K per year
 - Microsoft Multi-Factor Authentication
 - Our contract provides unlimited use at no additional charge. This allows all alumni, retirees, etc. to safely use USF email. Cost of this would be \$6.18 per user/per year.

FY20 to FY21 Year over Year Cost Differential

| FY20 FY21 | \$1.63M \$1.83M |
|--------------|--|
| \$50k | GitHub New Addition increase |
| \$50k | Changes in Head count increase |
| \$50k | Reduction in A5 discount |
| \$50k | True license increase (2.73% increase) |

We are here

Microsoft 2017 Pricing Agreement Limeline

Jan 2017

- Negotiation for new agreement
- Piggybacked off MEEC to satisfy competitive requirements
- Discounts & Pricing agreements set by Microsoft but handled by resellers

Aug 2017

3-Year EES
 Agreement 2017-20
 received BOT
 approval for
 \$3.97M

Oct 2018

- Moved from EES to A5 at add'tl cost of \$483K approved by Chair Lamb
- Needed to evaluate A5 vs A3 Model
- Locked in pricing for add'tl. 3 years
- New pricing was not a commitment by USF to purchase – only pricing lock for 2021-2023

Aug 2020

- MS pricing agreement locked in for years 2021 -2023
- Chairs briefed and approval granted for 1 year, expectation set to bring back year 2 and year 3 together at a later date

Jan 2024

Negotiation begins for new agreement

Microsoft 2020 Pricing Agreement Timeline Expanded

Aug 2020

- MS pricing agreement locked in for years 2021 -2023
- Chairs briefed and approval granted for 1 year, expectation set to bring back year 2 and year 3 together at a later date

Feb 2021

- Pricing remains locked in.
- Total value of year
 2 & 3 is ~\$3.5M

Jan 2024

 Negotiation begins for new agreement

Breakdown of license cost FY21-FY23

| | FY21 | | | FY22 | | | FY23 | | | | | | | |
|------------|-------|-----|-----------|------|-------------|----------|------|-----|------|-------------|----------|-------|-------------|-------|
| | Unit | | Qty | Ext | | Unit | Qty | | Ext | | Unit | Otty | Ext | |
| Student* | \$ 13 | .78 | 3 2 8 8 7 | \$ | 453,182.86 | \$ 13.78 | 32 | 887 | \$ | 453,182.86 | \$ 13.78 | 32887 | \$ 453,18 | 32.86 |
| Fac&Staff | \$ 99 | .41 | 11493 | \$1 | ,142,519.13 | \$108.37 | 11 | 493 | \$1, | ,245,496.41 | \$113.79 | 11493 | \$ 1,307,77 | 71.23 |
| Courtesy | \$ 99 | .41 | 829 | Ş | 82,410.89 | \$108.37 | | 0 | \$ | - | \$113.79 | 0 | \$ | - |
| Emeritus | \$ 99 | .41 | 495 | \$ | 49,207.95 | \$108.37 | | 0 | \$ | - | \$113.79 | 0 | \$ | - |
| FPP only** | \$ 99 | .41 | 1107 | \$ | 110,046.87 | \$108.37 | 1 | 107 | \$ | 119,965.59 | \$113.79 | 0 | \$ | - |
| Total | | | | \$1 | ,837,367.70 | | | | 51 | ,818,644.86 | | | \$ 1,760,95 | 4.09 |

Key Points:

Student price is fixed and uses FTE vs. headcount

Employee is based on headcount, FY22 is last year of A3->A5 license scaling

Despite Employee unit price going up each FY, # of units is being reduced dramatically (Emeritus / Courtesy & Faculty Practice move to AMG, reducing overall expense to USF

Budget reductions and cost saving

Existing USF Software being reduced or eliminated due to the ability to move to Microsoft products covered under our Microsoft Agreement:

- FY21 Contractual Savings
 - AVAYA Software Agreement \$175,000
 - DUO Software Agreement \$65,000
 - Barracuda Software Agreement \$23,000
- Additional Future Savings (FY22)
 - TrendMicro Software Agreement \$150,000
- Further License Reconciliation (TBD)

Agenda Item: Illc

USF Board of Trustees

March 9, 2021

Issue: Approve modifications to the 2020-21 Fixed Capital Outlay budget

Proposed action:

Approve two projects for specific reference within the Minor Carryforward (CF) Projects portion of the Fixed Capital Outlay (FCO) budget for the next reporting cycle to the Board of Governors:

- 1. <u>Amounts not to exceed \$800,000</u> for renovations to the 2nd floor of the College of Public Health building on the Tampa campus to provide research laboratory facilities for Preeminent Professors Richard and Loree Heller. The Heller's are part of the Department of Medical Engineering in USF's College of Engineering. The renovations are planned to be completed by July, 2021. **Source of funds =** E&G Carryforward
- 2. <u>Amounts not to exceed \$1,100,000</u> for renovations to Davis Hall (1st Floor) on the St. Petersburg campus to provide provide research facilities for seven members of the Department of Psychology (College of Arts & Sciences) and office space for approximately 20 faculty and 10 staff in the departments of Psychology and Mathematics. These renovations are planned to be completed by August, 2021. **Source of funds =** E&G Carryforward

Executive Summary:

The USF Board of Trustees (BOT) is required to adopt and approve an annual budget for the operation of the University to submit to the Board of Governors which includes a Fixed Capital Outlay budget. On September 29, 2020, the BOT approved a Fixed Capital Outlay budget designating proposed expenditures from all fund sources. This budget was approved by the Board of Governors as part of USF's required submissions for FY2021. This budget is aligned with the 2020 Appropriation Act and consistent with approved legislative spending authority. Changes such as these are presented to the BOT but resubmission to the BOG is not required until the subsequent fiscal year reporting cycle.

Financial Impact: Specific identification of funds categorized previously within the total of Minor Carryforward (CF) Projects

Strategic Goal(s) Item Supports: Goal 4 – Sound Financial Management

BOT Committee Review Date: February 23, 2021

Supporting Documentation Online (please circle): Yes

Prepared by: Business & Finance-Resource Management & Analysis

Agenda Item: IVa

USF Board of Trustees

Finance Committee February 23, 2021

Issue: DSO Mid-Year Forecasts for FY 2021

Proposed action: Informational

Executive Summary:

The Direct Support Organizations of the University (DSOs) have prepared their Mid-Year Forecasts and Revised Operating Plans for FY 2021.

These reports include a comparison of the Forecast to the FY 2021 Financial Plans approved by the BOT Finance Committee at its May 14, 2020 Meeting, as well as actual results for FY 2020, FY 2019 and FY 2018.

The DSOs presenting their Mid-Year Forecasts to the Board of Trustees Finance Committee are as follows:

- University Medical Services Association, Inc. & USF Medical Services Support Corporation
- 2. USF Foundation, Inc.
- 3. USF Research Foundation, Inc.
- 4. Sun Dome, Inc.
- 5. USF Health Professions Conferencing Corporation

The remaining DSOs will not be presenting in the interest of time, but are available to answer any questions from the Board of Trustees Finance Committee:

- 6. USF Financing Corporation & USF Property Corporation
- 7. USF Alumni Association, Inc.
- 8. USF Institute for Applied Engineering

Financial Impact:

The Direct Support Organizations of the University of South Florida (DSO) are organized and operated exclusively to assist the University achieve excellence by providing supplemental resources from private gifts and bequests and valuable education support services. These organizations are authorized by

Florida Statute 1004.28 to receive, hold and administer property and make expenditures for the University.

Strategic Goal(s) Item Supports: **Goal 4: Sound Financial Management**

BOT Committee Review Date: February 23, 2021

Supporting Documentation Online (please circle): Yes No

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

• Patient Service Revenue

 In response to patient demand and to ensure access to our providers for our most vulnerable patient populations, the practice plan continues to maintain strong telehealth volumes, accounting for approximately 30% of our visit volumes.

• Financial Austerity Measures

• The practice plan has significantly reduced it's spending on travel, meals, dues & subscriptions, and events in response to the COVID-19 pandemic. We are also requiring executive leadership approval for all hiring requests for new and replacement positions.

• Debt Service

The practice plan delayed payments on University convenience account salaries at the end of FY20 to preserve cash flow. The
debt was repaid in full by 9/30/2020. UMSA also received a \$6.4M loan from the CMS Accelerated/Advance Payment Program
and will repay the balance when due in March so that we do not have to incur interest.

• Liquidity

o In our FY21 plan, we estimated ending the year with 40 days cash on hand. We are well ahead of our plan and are on track to end the year with 51 days cash on hand, which is an improvement over our pre-pandemic reserves.

Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.

• In our FY21 plan, the practice plan assumed the use of carryforward funds to help support the academic costs that are funded through the practice plan. However, the practice plan was able to financially recover from the crisis faster than expected by maintaining both in-person and telehealth visit volumes, strong surgical case volumes, and significant expense reductions. Therefore, we do not anticipate the need to utilize these carry forward funds and those assumptions have been removed from our forecast.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- Minimum liquidity measure for 6/30/21
 - Cash and short term investments are managed and appropriately rebalanced based on a frequent evaluation of gifts received and funding requests to be paid.
- No significant changes from original plan.

Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.

- The Foundation anticipates providing support to the University of over \$50 million in Program service expenses including salary support for faculty and staff, student scholarships and fellowships, and other program-related expenses.
- The forecast includes approximately \$12.3 million in personnel costs for fundraising and operational staff paid from sources within the University. As required under GAAP, University support for Foundation staff providing development and operational support are reflected in this forecast, as well as, the Foundation's financial statements.
- Also included in university support is \$526k related to the operating lease with the University as tenant on property located in St. Petersburg. This lease payment is used to cover the mortgage that financed the purchase of the St. Petersburg property.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- The FY21 Revised Operating Plan reflects a decrease in Research Park expenditures of \$520,000 through requested cost reductions from vendors and other savings realized from limited occupancy and a shift to remote working in response to the pandemic. Additional savings in salaries and benefits of \$134,000 result from vacant positions. Savings of \$50,000 have also been realized in operations from minimal VP expenditures for other program services, due to limited activity resulting from COVID-19.
 - In addition, \$357,000 in CAP-X savings are forecasted as a consequence of the postponement/cancellation of planned capital expenditures during FY21. This will reduce FY21 depreciation expense by \$79,000.
- To reduce University expense, the NMR Use License Agreement will not be renewed in quarter 4 FY21. This will result in an annual recurring decrease in revenue of \$307,000 for the Research Foundation.
- To reduce the Incubator program expenses incurred by the University, cash payments totaling \$2.0M from Research Foundation to the University's Incubator program (TBTI) will occur in FY21. As of the date of this report \$1,500,000 has already been transferred towards this commitment. The transfer of this fiduciary cash to the University's chartfield for the Incubator program, will reduce the University's FY21 program expense. A quarterly transfer of \$250,000 on an ongoing basis (\$1,000,000 per annum) which approximates the positive cash flow generated from tenant rents and sponsor support, will reduce the University's expense each year thereafter.
- To reduce the University's operating expenses for Patents and Licensing (TTO), management of the Research Foundation is working with University financial leadership and the DSO Board of Directors, to restructure the allocation of net revenue generated from Intellectual Property Program fees that are processed by the Research Foundation. The forecasted financial plan for FY22 and future years, reflects a proposed 5% administrative fee revenue (\$300K) be earned by the Research Foundation, and the net earnings of \$450,000 and \$480,000 for FY22 and FY23, respectively, be transferred to Patents and Licensing.
- Construction of the new USF Research Park mixed use lab and office building has a projected completion date of December 31, 2021. Pursuant to the executed Credit Agreement with USF Financing Corporation and a bank, the Research Foundation has committed to provide equity of \$15.0M towards the cost of the project, on or prior to the issuance of a certificate of occupancy. To provide security to the Bank and USF Financing Corp, the Research Foundation must assign the leases and lease revenue from the new building in addition to lease revenue from buildings 3650, 3702 and 3802 Spectrum.

A master lease agreement with USF Financing Corp was also entered into which obligates Research Foundation to pay an escalating annual principal payment that commenced January 2021, and base rent equal to interest cost on the financed amount of \$27.0M that began in FY20. Upon project completion in FY22, a capital asset and capital lease obligation will be recorded by the Research Foundation.

Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.

• Research laboratories and office space are leased to the University under operating leases which generally range from 36 to 120 months. In addition thereto, the University leases a building from the Research Foundation, under a master lease agreement through 2036 or the expiration of the long-term debt, if earlier. Total rent revenues from the University approximate 90% of the Research Foundation's total rental revenue. Forecasted revenues include receipt of these future minimum lease payments.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- Expense management and cut backs, including staff reductions and furloughs. Priority payments related to costs essential to
 ensuring the maintenance & the upkeep of the Arena, as well as return to operations are reflected in the FY21 forecast. A \$100
 thousand reduction in the management fee has been factored into the FY21 forecast per the expense management provision of the
 management agreement.
- FY21 forecast includes \$413 thousand in annual debt service payments
- FY21 forecast assumes \$335 thousand in cash received for on-sales related to FY22 events and USF-only events, with the
 exception of the Pasco County graduation in June
- FY21 Cash Flows assume the DSO, with full support from the Manager, will defer payments to the Manager until such time as cash flow is available to satisfy that obligation

Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.

- Prior to the COVID-19 Pandemic, the DSO and the Manager were successfully guiding the business to a record year.
- Unfortunately, the COVID-19 Pandemic impacted the operations of the DSO particularly hard, resulting in a complete cessation of
 events for an extended period.
- By working together, the DSO and the Manager have developed a plan to navigate this year's unique difficult operational and financial reality caused by this unfortunate event.
 - Primary goal of the plan is to protect the DSO's liquidity by managing the accounts payable until such time as ticket sales resume to a sufficient level
 - The DSO and the Manager have made a joint commitment to protect the revenue generating ability of the Yuengling Center so that upon the return of events, the Yuengling Center is positioned to provide positive business operations
 - Throughout the near future, the DSO and the Manager agree to determine the appropriate earn out process such that the Manager is repaid while maintaining the liquidity of the DSO. Further, the reality of the upside operations will generate additional incentives to both organizations.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

• Client preservation

- In FY2021, HPCC has been working to coordinate rescheduling FY2020 programs affected by COVID19 and valued at more
 than \$1 million in revenue. CAMLS affirmative actions to proactively postpone many programs with long lead times, has
 strengthened relationships with external clients and as a result, is projected to grow revenue and increase operating earnings for
 FY2022 and 2023. This Revised Operating Plan anticipates a significant portion of the rescheduled programming will occur in
 FY2022.
- o In April 2020, CAMLS launched its Assurance Campaign which addressed CAMLS' broad approach to site safety, facility cleanliness and sanitizing, and a range of access controls to prevent the spread of COVID-19. This extensive internal program included an aggressive outreach plan to ensure visibility and heightened awareness of this critical aspect of CAMLS recovery plan. The campaign, coupled with new virtual reality and live streaming capabilities resulted in several external clients that had postponed their activities returning to CAMLS as well as the identification of numerous new clients who were unable to return to facilities they had previously used for simulation training.
- Through its Assurance Campaign and by providing additional required space to enable physical distancing, HPCC and the CAMLS facility continued to provide flexible space and access to simulation learning and healthcare education to USF students, including Morsani College of Medicine Undergraduate Medical Education (UME), MCOM Anatomy Laboratory, Graduate Medical Education (GME), and Physician's Assistant (PA) students, College of Nursing Certified Registered Nurse Anesthetist (CRNA) students, College of Pharmacy students, and Muma College of Business students. Decreasing tax receipts, limitations on carryforward usage and movement of classroom training to the new Morsani College of Medicine downtown building have reduced funds available for training at CAMLS, but usage remains strong, especially in the most expensive simulation and wet lab spaces for patient simulation training and anatomy. The return of external clients to CAMLS will enable HPCC to continue providing low cost advanced medical simulation training space, equipment and expertise to the USF community.
- CAMLS has successfully developed new relationships to deliver programming that occurs off-site ('CAMLS Without Walls')
 which exports CAMLS' talent, tools, and resources to support our community and other Florida hospitals and healthcare
 systems where face to face lifesaving training is needed but the ability for participants to travel was not possible.
- Although live events are postponed indefinitely, The Office of Continuing professional Development has expanded its portfolio
 of online programming in partnership with medical education companies (MEC) to compensate for some of the lost live event
 business.

• Expense reductions

- Since March 2020, HPCC has proactively reduced its operating expenses, interest expense and administrative footprint to
 compensate for reduced business volumes and create more training space. These reductions are prudent for meeting short-term
 needs and will reduce FY2021 operating and interest expenses by 15% from the approved FY2021 Financial Plan and better
 position HPCC over the long-term as follows:
- Staffing HPCC proactively froze 3.5 FTEs in early 2020, eliminated staff and leadership annual bonus, required mandatory leave, eliminated optional professional development and travel related expenses, cross-trained and reassigned staff to meet demand, transitioned temporary staffing needs for programming to full time staff and after all other facility cost saving measures had been implemented HPCC completed a staffing reorganization which eliminated 8 FTEs and created 4 new FTEs to better service customer remote and virtual training needs. The resulting 15% reduction in workforce, positions HPCC to pivot toward a new reality of increased distance learning over the long-term.

- Staffing footprint HPCC has transitioned more than 40% of it workforce to remote work, freeing up 3,000 square feet of space for revenue generation.
- Operations Working with the operational consortium which supports USF Health's downtown facilities and spaces CAMLS has been able to scale housekeeping based on need and CAMLS staff have assumed the daytime responsibilities of security. Utilities have been efficiently managed and adjusted for reduced activity and the parking footprint reduced to eliminate unused spaces as well as the most expensive spaces while employee share of parking rates were increased to cover at least the cost of the space. Rent forgiveness and waiver of monthly fees were solicited from vendors with some successes. HPCC also provided some concessions to CAMLS vendors dependent on its business volume.
- Debt Service The USF Financing Corporation refunded the CAMLS bond in early FY2021 reducing the net interest rate from 3.51% to 2.25%, which will in turn reduce HPCC's future interest payments by approximately \$871 thousand through 2031.
 Although FY2021 interest expense will be less, the cash savings will be a wash since an early payment premium was required with the refunding.

• Contractual obligations and liquidity

 HPCC has and will continue to make all debt service and other contractual payments in FY2021. The targeted minimum days cash on hand at 6/30/2021 is 30.

<u>Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.</u>

- The approved FY2021 Financial Plan included \$500 thousand of support from UMSA. That amount continues to be the targeted amount of needed financial support from related USF parties. However, \$180 thousand of the funding is expected to be for simulation equipment used by students and funded as a non-recurring purchase with carryforward funding, Therefore, the assets belong to USF and the funding is not reflected in HPCC financials.
- The return of external clients to CAMLS in FY2022 will enable HPCC to rebuild it cash position.
- HPCC's proactive measures to reduce expenses, preserve client relationships and create a safe learning environment with remote training options will ensure HPCC's cash reserves carry it through these challenging times to a more profitable FY2022.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- The Financing Corporation is USF's conduit financing entity. The Corporation issues debt on behalf of the University and receives pledged revenues or lease payments from the University's major business units to pay debt service on their capital projects.
- The pandemic has adversely affected DSO and Auxiliary revenues pledged to the bonds issued by the Financing Corporation. All
 DSOs and Auxiliaries have implemented cost-cutting measures to preserve essential liquidity and maintain required lease
 payments.
- The DSO and Auxiliary debt service obligations are priority payments to the Corporation; thus, the Corporation does not anticipate any difficulty in making its Fiscal Year 2020-21 annual debt service payments.
- The key aspects of the Corporation's Revised Operating Plan for FY 2021, compared to the BOT-approved Financial Plan (Budget), include the following:
 - Debt service payments and maintenance of debt service reserves continue to be a priority for DSOs and Auxiliaries in FY 2021.
 - The Corporation is a conduit financing entity and, thus, operates with minimal operating expenses. The necessary restructuring responsibility to offset the reduction in DSO and Auxiliary revenues belongs to the DSOs and Auxiliaries.
 - As a key aspect of the Corporation's Revised Operating Plan, the Corporation waived \$2.1 million of the DSO and Auxiliary
 payments for management fees and renewal and replacement reserve contributions. While this resulted in a decrease in
 Corporation revenues, it did not impact the Corporation's ability to pay its fiscal year 2020-21 annual debt service payments,
 maintain strong liquidity (exceeding 300 days cash on hand), maintain its \$20 million in reserves, and report a positive
 operating profit.
 - The Corporation assessed 19 outstanding series of bonds to identify refunding opportunities to reduce DSO and Auxiliary annual debt service payments:
 - Identified 3 private placement bonds: \$30 million total outstanding average 3.5% fixed rate
 - Negotiated new 2.25% rate over remaining 10 years to maturity; No new covenants
 - Savings for CAMLS and Athletics' debt service equals \$2.1 million over the remaining term of the bonds
- To protect USF's credit ratings, the Corporation filed 6 voluntary disclosures with Moody's and S&P and on EMMA (SEC database
 for public bonds) in May, June and August 2020. Disclosures were filed for Housing, Parking and Marshall Student Center public
 bonds to provide timely information on University fall 2020 enrollment, student refunds, CARES Act funding, affected revenues,
 debt service coverage ratios, operating and reserve balances, and state support.
- INTO USF, at its Board Meeting on February 2, 2021, forecast a net operating loss of (\$2,574,000) and a net cash reduction of (\$3,279,000) for fiscal year 2020-2021. USF Financing Corporation has a 50% equity investment in INTO USF with a net investment of \$93,836 as of June 30, 2020. The Corporation's fiscal year 2020-2021 Mid-Year Forecast writes off the remaining investment in INTO USF and recognizes 50% of INTO USF's net operating loss. On January 17, 2010, the Financing Corporation approved a promissory note to lend to INTO USF amounts not to exceed \$2,250,000. As of June 30, 2020, and today, there have been no borrowings or outstanding borrowings on the promissory note; however, the Corporation has a contingent obligation to fund the \$2.25 million note to INTO USF.

<u>Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.</u>

- The Corporation relies on USF DSOs and Auxiliaries to make lease payments corresponding to the Corporation's debt service obligations. Management is working closely with the DSOs and Auxiliaries to monitor necessary operational restructuring to offset revenue losses.
- The Corporation's Revised Operating Plan incorporates management's expectation that the DSOs and Auxiliaries will continue to make the required lease payments to the Corporation.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- Events: Revenue and Expenses
 - The Association's 2021 budget contained an assumption that events and other activities in person would return at the end of the first quarter of the fiscal year. Instead, events are being held virtually throughout the whole fiscal year. We expect a decrease in event revenue, event related giving, and sponsorships of approx \$383k. Expenses associated with these activities will also decrease by \$347k. The net effect of having all activities held virtually instead of in person is a \$36k loss.
- Royalty Revenue
 - The Association has affinity contracts with various entities. Royalties are significantly based on activities that have been discontinued or greatly reduced during the quarantine. The largest one of these affinity contracts is with Follet for marketing services provided by the Association and compensation is based on the number of cap and gowns sold for commencement. The virtual nature of these events has decreased our Follet revenue stream by 93%, or \$95k. Other activities effected by COVID-19 include: travel program, Days at the Rays, and sale of class rings.
- Other expenses
 - In order to cover the decreased revenue from activities described above, the Association has made reductions in almost all
 expense areas. We currently have two unfilled positions which contribute to salary savings that will remain open throughout
 the year. Travel expenses, membership solicitation, and professional services have also been decreased.
- Membership Revenue
 - Membership revenue is an area that is outperforming our original budget by 12%. These gains are contributing to an increase in operating profit for the Association.
- Days cash on hand/ Available Reserves
 - Reducing our draw on reserves has increased our forecasted days cash on hand by 41%; however, the reserve draws throughout
 the year will reduce the Association's reserves by 44%.

<u>Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.</u>

- The Association received \$364k in financial support from the University and the Foundation. To balance the Association's FY'21 budget, funding support of \$864k was requested. However, this request was reduced by \$500k to support the University's overall budget needs. As such, the Association planned to support its budget needs through a up to \$500k draw on its reserves. Due to the favorability in our forecasted results, the expected draw requirement has reduced from \$500k to \$378k, or 25%.
- No additional financial support from USF parties is needed to meet our revised operating plan.

FY 2021 Mid-Year Forecast - Revised Operating Plan

MID-YEAR FORECAST - REVISED OPERATING PLAN FOR FY 2021

Outline below the Key Aspects of your Revised Operating Plan for FY 2021. Describe operations you have restructured to offset revenue losses from the BOT-approved Financial Plan, priority payments for FY 2021 (such as debt service and other contractual obligations), and describe your targeted minimum liquidity measure for 6/30/21 (days cash on hand) and reserves.

- In the first half of FY21, US Special Operations Command, US Air Force, and SOFWERX awarded 13 contracts to USF IAE worth \$10.4M. Earned revenues from these contracts as well as those awarded in FY20 keep us on pace to earn \$4.8M in planned contract revenues.
- USF IAE officially opened its 4000 sq ft research headquarters facility at the University Mall in November. While currently minimally staffed due to COVID-19 precautions, it provides secure access to research equipment and network infrastructure necessary to execute USF IAE contracts.
- In the first half of FY21, USF IAE hired 13 new full time employees. This brings the total number of IAE employees to 23, providing support necessary to execute IAE contracts.
- Under year two of USF IAE's grant agreement, Hillsborough County continues to fund facility improvements, equipment and staff necessary to support IAE's rapidly expanding operations.
- USF IAE helps ensure its targeted minimum liquidity for the remaining six months of FY21 through closely managing its vendor payments. USF IAE pays vendors directly supporting its contracts only after receiving payments from its sponsors. For non-direct project related expenses, USF IAE pays its vendors NET 45 days.

<u>Describe and quantify needed financial support from related USF parties you are relying on to ensure basic financial performance outcomes, meet contractual commitments and maintain minimum liquidity and reserves. State whether this support is included in your Revised Operating Plan.</u>

• USF IAE is currently in year three of USF's five year funding commitment to support establishment of the Institute. This funding has been necessary to execute IAE's growth plan while maintaining minimum liquidity. The funding USF provided in FY21 is the same as was established in the original plan approved by the Board of Trustees in summer 2018.

BUDGET UPDATE

Progress Report

Nick Trivunovich February 23, 2021

Update – Activities since January 12

- 6% cash holdback resolved
- Continuing dialogues on targets
- Receipt of the Governor's budget
- Receipt of Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) funds

How the "Holdback" works

- Budgets were formulated prior to Governor July 1 letter
- General "holds" were put on 6% of all budgeted amounts
- Colleges had already committed budgets at 100%
- Colleges and support units asked to identify cash savings equivalent to the 6% holdback
- Once cash was identified, holds were released

Continued Discussions to Achieve Targets

- Deans and colleges
- Faculty senate executive committee

CRRSAA Funding

Second allocation of funding received: \$58 million.

Rules surrounding allowable expenditures have not been promulgated.

The MOU USF signed to receive the funds states we will abide by current rules and restrictions and those that are yet to formulated by federal oversight authorities.

While the program allows recovery of "lost revenues" it is prudent to assume that the objectives of the draws must be expenditure-based and have a Covid-related purpose.

There are also legislative considerations.

Next Steps

- Spring 2021: Use Strategic Plan to inform/refine targets for fiscal 2023
- March / April 2021 Legislative session
- May / June 2021: Bring fiscal year 2023 implementation plan and budget to BOT
- June 8, 2021: BOT approval of Strategic Plan
- July 1, 2021: New fiscal year 2022 budgets for departments and units posted, net of first round reductions
- **July 1, 2022:** New fiscal year 2023 budgets for departments and units posted, net of both rounds of reductions
