UNIVERSITY OF SOUTH FLORIDA

# WHAT IS THE BULLS TO BUSINESS PROGRAM?

The Bulls to Business Program is an exclusive four-week long summer program that offers admission to the Muma College of Business for first-year business students. The program, known as Bridge, is highly selective allowing only 33 students to complete specialized courses that will give them an early advantage in preparation for their future careers.

## ELIGIBILITY REQUIREMENTS

Accepted students will receive a letter welcoming their admission into the Bridge Program. Members are directly admitted into the Muma College of Business and are eligible to join the Bulls Business Community.

Eligibility for the program will depend on two main factors:

- Weighted high school GPA
- Successful completion of selected math courses
- Must not have completed College Algebra or Business Calculus for college credit

*Students that have applied will receive an invitation from the selection committee welcoming their admission into the program.*

Students must be in good academic standing at the end of the summer term to be guaranteed full admission to the Bulls Business Community and the Bulls Business Network.

# BENEFITS OF THE BRIDGE PROGRAM

Incoming freshman will be eligible to enroll in the program based on their weighted high school GPA and math courses. Students will enjoy several benefits as a result of their admittance into the program:

## Admission into the Bulls Business Community

The BBC is an exclusive living-learning community for high achieving first-year business students that meet eligibility requirements. Students will have access to benefits of being in the Bulls Business Network.

## Company Tours and Networking Opportunities

The program offers students the opportunity to visit corporate offices and go on company tours to get an in-depth experience of working in a corporate environment. Students will be offered networking opportunities that are unavailable to most students.

## Enrollment in the following courses

Students will complete a specialized math course that allows them to bypass College Algebra and be prepared for Business Calculus in the fall. In addition, students will take an interactive professional development course typically reserved for sophomores.

## Convenient Housing

Students will move in to Juniper Poplar Hall on July 6 and 7. After the completion of the Bulls to Business Program, students will have the opportunity to move into Endeavor residence hall as members of the Bulls Business Community for the duration of the 2019-2020 academic year. Students living on campus will have access to the fitness center, pool, computer lab and sporting events.
