

**School of Social Work
MSW Field Program**

MSW Field Manual Acknowledgement Form

I understand that by this statement, I agree to read and become familiar with the content in the MSW Field Manual prior to the second week of the first semester of enrollment. The manual details my rights, responsibilities, general policies, forms, and curriculum information necessary for a successful field experience within the University of South Florida, School of Social Work. Any questions I may have about this content will be directed to a member of the field faculty at once. Further, I understand this form must be signed and returned to my field placement coordinator prior to beginning my field placement and that failure to do so may result in delay with my field education.
