David C. Anchin Center for the Advancement of Teaching Presents:

EFFECTIVE ONLINE TEACHING
Professional Development

A FREE ONLINE COURSE FOR K-12 TEACHERS

Summer 2022 // June 13 – July 22

Online technologies have changed the shape of teaching and learning. Teaching in technology-infused classrooms that prepare students for a global 21st century demands new approaches to facilitate learning.

Whether teaching fully online or using technology tools to enhance face-to-face instruction with students, this online professional development series will support participants in exploring best practices in online teaching and learning.

This course is fully online and asynchronous. Participants progress through the course material at their own pace and there are no required live sessions. All course materials will be provided for participants in the course learning management system.

Participants who complete the six-week course will earn a Certificate of Advanced Professional Learning in Effective Online Teaching from USF's David C. Anchin Center for the Advancement of Teaching.

The David C. Anchin Center is proud to offer this course free of charge to participants.

Register at **tinyurl.com/onlinepd2022**

BY THE END OF THE COURSE, PARTICIPANTS WILL:

- Increase their awareness of unique issues revolving around teaching and learning in online environments.
- Communicate ideas and information through a variety of technologies to diverse audiences.
- Learn ways to continue building a positive online classroom culture where teacher-student relationships continue to drive and support student academic learning.
- Improve their own online pedagogical and problem-solving skills.
- Maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative.
- Utilize several technologies that can assist them in optimizing and promoting learning
- Independently and accurately apply proven best practices techniques into their own online teaching.
- Design and develop technology-rich products that effectively deliver and aid in the delivery of instruction online.
- Demonstrate the ability to comprehend, express, and adapt to ideas based on their content area.

Dr. James Hatten is an Associate Professor of Instruction in the Instructional Technology Program in the Department of Educational and Psychological Studies at the University of South Florida College of Education. He holds a PhD in Curriculum and Instruction with an emphasis in Learning Technologies from the University of Minnesota and a Master's in Education in Learning Technologies from the University of Minnesota.

In 2020, Dr. Hatten was awarded the Margaret Burlington Tritle Excellence in Teaching Faculty Award, which recognizes USF College of Education faculty members who are outstanding in their teaching endeavors.
