

CampusFolio

Exciting news! The USF College of Education has begun to transition to a new e-portfolio system, CampusFolio.

This new e-portfolio system will be free for students, faculty, and staff.

Its user-friendly interface makes it simpler for students to submit assessments and for faculty to assess their work.

REPORTING

- CampusFolio will allow students to upload critical tasks required to demonstrate competencies for national, regional, state, and institutional requirements.
- This system will collect, analyze, and report student data into a single database.
- Provides evidence of student progression through their program of study.

SUPPORT

To assist students, faculty, and staff with the use of CampusFolio, the College of Education has a help desk that is available Monday through Friday. Our help desk offers a full support system, that includes email and phone assistance, and customized training seminars. We can also accommodate walk-ins to help you learn how to use this new system.

INFORMATION

Periodic updates will be provided on the USF College of Education CampusFolio website at bit.ly/CampusFolio.

Please contact your program coordinator to learn when your program will be transitioned to CampusFolio.
