KALTURA QUIZZES

The Quiz function enhances the engagement of your videos by allowing you to embed knowledge-check questions that feed directly to the Canvas gradebook.
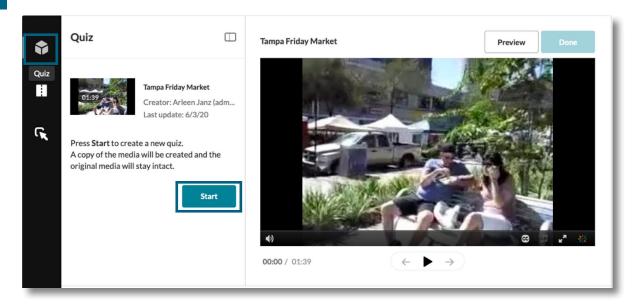

Creating Quizzes

01 Begin by opening your video in My Kaltura and choose **Actions**, then **Launch Editor**.

02 From the editor screen, select the **Quiz** button (cube icon) positioned on the top left and then choose the **Start** button to create a new quiz. Kaltura will create a backup of your video.

**03** From the left panel, you can set up your quiz parameters.

04 **Details** – This is basic information about the quiz including the Name, Welcome Message, and any Instructions that will appear at entry. It also gives you the option of providing a downloadable list of questions to students.
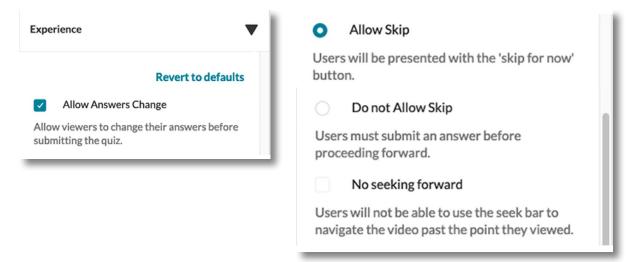

Scores – This allows you to set up the number of attempts and score feedback.

Experience – This allows for question skipping, answer changes, and seeking.

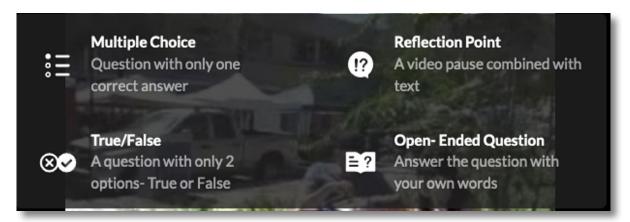

05 Once you set all parameters you can begin adding questions. To do this, play your video and stop it at the point where you would like the question to prompt. You can also go directly to a spot within a video by clicking within the player at the bottom. In this case, the question is set to prompt at the 10:19 point within the video. Once you have set where you want the question to prompt, select **Add a Question**.

06 Choose a question type. Multiple Choice and True/False will be automatically scored and feed directly to your Canvas gradebook when you add the video to an assignment. Open-Ended and Reflection Points will appear within the Kaltura Analytics.

07 For this example, we will use an Open-Ended question. Input your question and select **Save**.

08 A marker appears on the timeline where your question should appear. Continue adding questions.

Don't MISS *Be very careful not to place your questions too close together on the timeline. This could cause questions to disappear from the quiz, disallowing students to complete the quiz.*

09 A button appears to **Preview** your quiz after the first question has been created. Continue adding questions. When you're finished, select **Done**.

5

12/15/2021

10 The final video will show markers to indicate where the questions are on the video. These markers cannot be hidden.

Quick TIP *Be sure to space your questions at sufficient lengths apart. If they are too close, sometimes one will end up being placed on top of the other and the one beneath will never be accessible to students and will throw off the quiz entirely as unusable.*
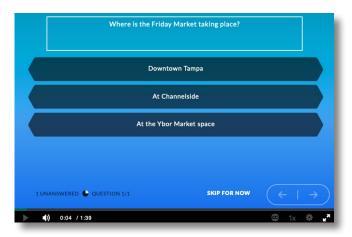

Instructions for Students

When students take the quiz, they must follow the directions below. This section is being added for you to copy and paste as instructions for your students.
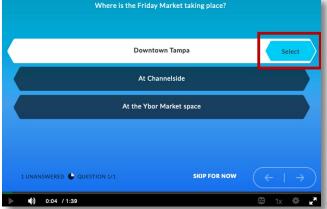

Directions for taking the video quiz:

01 When each question appears, selecting an answer is a 2-step process.

1. Choose your answer to make the **Select** button appear.
