

Student Green Energy Fund

Project Quarterly Report

Project Name: Recycling signage

Date: April 3, 2019

Team members: Seyena Simpson, Robin Rives, Suchi Daniels

Status of the project: In Progress

Completed activities:

The project was approved for funding in November 2018. Robin Rives worked with another party to create a first draft of the recycling signage. In March 2019 Seyena Simpson and Suchi Daniels met with Aaron Nicholas from marketing to get feedback on the signage. A meeting was then held with the vendor to discuss design and production of the signs. The space impact request was signed by student success and is awaiting approval.

Remaining Project activities:

Get final signage design approved, purchase signage, gain access to recycling bin locations, organize student volunteers to put signs in place

Projected completion date: TBD

Detail how the funds were used so far: Student salaries

Detail fund matching, rebates or in-kind contributions if applicable: The signage is being re-designed in kind by Crazy 4 Signs.

How are the benefits of this project being communicated to the USF community? When the project is launched a plan will be outlined for outreach

Include photos of the project

Original drafts of signage

RECYCLE-A-BULL

Bottles & Cans Recycling

Do Recycle:

- Aluminum Cans
- Plastic Bottles

Green FACT
 RECYCLING 5 plastic bottles SAVES enough energy to power a laptop computer for 12.7 hours!

Do NOT Recycle:

- Food Waste
- Coffee Cups
- Food Containers
- Plastic Bags
- Plastic Utensils
